A WHOLE LOT OF WHOLESOME!

If variety is the spice of your life, then Aravali is glad to present a menu that features a wide selection of culinary delights from the Wild Wild West and our own backyard where Marwaris reign supreme and having sweets before the main course is customary.

While our master chefs have perfected the art of recreating international fare using the finest produce, they’ve also masterminded ACTIVE FOOD – great-to-taste, micronutrient-based food and beverage for those who look after themselves.

Active Food includes ingredients of low glycemic value – such as complex carbohy-drates, unpolished and unprocessed whole grains, vegetables and legumes – that ensure sugar is released into the blood stream much slower than other types of food. This helps in weight management and keeping your energy levels high.

It also includes fresh fruit dishes packed with antioxidants and phytochemicals that fight against free radicals and inflammation, known to cause chronic diseases; pro-biotic food that’s naturally fermented and loaded with useful bacteria; and super foods that are believed to be mood enhancers.

Think there’s nothing better than good home-cooked food? We agree! That’s why we brought in homemakers to don the chef’s cap. They’re eager to bring to your table cuisine prepared using fresh-off-the-market ingredients and flavors that are characteristic of this part of the world.

If that’s too hot to handle, there’s an assortment of classics that’s pretty much in your comfort zone.
